CRIME IN KENTUCKY

1986 REPORT

OFFICE OF THE GOVERNOR
FRANKFORT, KENTUCKY 40601

MARTHA LAYNE COLLINS
GOVERNOR

My Fellow Kentuckians:

This annual "Crime in Kentucky" reports alerts us to the harsh realities associated with serious crime and to the responsibility we all share in addressing the problem. Like you, I am deeply disturbed by the 5.5% increase in serious crimes, as indicated in the 1986 report. Because crime affects the quality of life for our citizens, the need to apply effective strategies to reduce crime becomes an urgent priority for all law enforcement officers and citizens alike.

While there is some comfort in recognizing the fact that the number of persons arrested during 1986 has increased proportionately with the rise in crime, aggressive law enforcement efforts alone will not effectively stem the tide of crime. We are all deeply grateful to the police who "protect and serve," and we remember the four officers who sacrificed their lives during 1986.

Hopefully, the detailed information contained in this 1986 "Crime in Kentucky" report will serve as a basis for developing effective crime prevention strategies. Citizen crime prevention efforts are of equal importance, if we are to make Kentucky a safe environment in which to live and work.

As your Governor, I will continue to support law enforcement and citizen crime prevention efforts, and encourage every citizen and police officer to do likewise.

Sincerely,

Martha Layne Collins

MARTHA LAYNE COLLINS
GOVERNOR

MORGAN T. ELKINS
COMMISSIONER

May 7, 1987

The Honorable Martha Layne Collins
Governor of Kentucky
The Capitol
Frankfort, Kentucky 40601

Dear Governor Collins:

Pursuant to Chapter 17 of the Kentucky Revised Statutes, I am pleased to submit the 17th Annual "Crime in Kentucky" Report.

In compiling the annual statistics for crime and arrest data from the Uniform Crime Reports this year, a compliance level heretofore unrealized was reflected. Only one agency failed to submit all of the required reports during 1986. This high level of compliance with UCR monthly reporting requirements is attributable to a cooperative effort on behalf of local law enforcement agencies and the Kentucky State Police.

To further enhance the quality and timeliness of offense and arrest data, I am pleased to report to you that we have made significant progress in automating the collection and analysis of crime data, criminal history information, and fingerprints. With these technological advances, we are confident that a more detailed and comprehensive analysis of crime is within reach, together with the capability of developing and applying new and improved strategies necessary to combat crime in the Commonwealth.

We in the Kentucky State Police shall continue to meet our responsibilities in improving Kentucky's Uniform Reporting program to better serve the citizens of the Commonwealth.

Respectfully submitted,

Morgan T. Elkins

Morgan T. Elkins

STATISTICAL SUMMARY REPORT . . . . . (inside, back cover)

DEDICATION

This 1986 Crime in Kentucky Report
is fittingly dedicated
to those officers
WHO PAID THE SUPREME SACRIFICE OF HIS LIFE
ON BEHALF OF THE CITIZENS OF THE COMMONWEALTH.

Officer John Robert Weiss
Shively Police Department

Officer Weiss was shot to death in a parking lot by a drug dealer from whom he had arranged a buy. The son of a police officer, Officer Weiss' brief, but dedicated career, had already resulted in the arrests of twenty-seven narcotics offenders. He had recently received a degree in Police Administration from the University of Louisville. His life was taken on February 12, 1986. He was twenty-five years old, and is survived by his devoted mother.

Chief Robert Taylor Walker
Irvine Police Department

Chief Walker, an eight year law enforcement veteran in Estill County, was shot to death on February 16, 1986, while responding to an alleged domestic dispute. This dedicated officer had served as Chief of Police for just one month. Prior to this appointment, he had been Deputy Sheriff in Estill County. He was sixty-five years of age, and is survived by his loving wife, Virginia, his mother, a sister, and three brothers.

Charles Frederick Cash
Kentucky Corrections Cabinet

Mr. Cash died on May 9, 1986, from injuries caused by a blow to the head with a blunt instrument while at the West Kentucky Farm Center, where he served as Corrections Farm Program Supervisor. This dedicated correctional officer was a 1973 graduate of the Murray State University Agriculture program. He was thirty-five years of age, and is survived by his loving wife, Marilyn, their son, and two daughters.

Officer John Robert Herron
Falmouth Police Department

Officer Herron, a two year veteran of the Falmouth Police Department, died on December 20, 1986, after being struck by two cars while investigating a single-car accident on U.S. 27. A dedicated public servant, Officer Herron, was also a full-time employee of the Pendleton County Water District and a long-term member of the Falmouth Volunteer Fire Department. He was forty-seven years of age, and is survived by his loving wife, Ella Mae, a daughter and son.

KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

WHAT IS THE UNIFORM CRIME REPORTING SYSTEM?

The Uniform Crime Reporting System collects, compiles, classifies, analyzes, and reports national, statewide, and local area offense and arrest data. Chapter 17 of the Kentucky Revised Statutes, as amended in 1976, requires that all law enforcement agencies file UCR reports and vests the authority and responsibility for the system with the Commissioner of the Kentucky Department of State Police.

WHY IS A UNIFORM CRIME REPORTING SYSTEM IMPORTANT?

Accurate and timely crime data are vitally important tools for law enforcement planning, operations, and management. The Governor and other public officials entrusted with the responsibility for the safety, well-being, and quality of life in the Commonwealth, citizens who are potential victims of crime; and researchers engaged in the study of crime and its effects are entitled to an assessment of the crime problems.

In order to maintain uniformity of crime and arrest data nationwide, standardized definitions of crimes reported through the UCR system have been adopted. This uniformity is important to overcome variations in definitions of criminal offenses among states and localities.

HOW DOES THE UCR SYSTEM WORK?

Each law enforcement agency in Kentucky is responsible for compiling its own crime reports and submitting them monthly to the Records Section of the Kentucky State Police. Based on citizen complaints and arrest records, each agency tabulates its data and enters it on standardized UCR forms. The Kentucky State Police submit Uniform Offense Reports in lieu of UCR monthly reports. State Police UORs are tabulated by computer and form the basis for the State Police Uniform Crime Reports.

All UCR reports and UORs are checked for accuracy and reasonableness before they are entered into the computer by the Data Processing Section. If a report is incorrect, the agency is contacted by the Inter-Police Services Section Officers who are responsible for assisting local departments in meeting their Uniform Crime Reporting requirements.

FBI NATIONAL REPORT

HOW ARE CRIMES CLASSIFIED?

Offenses are divided into two broad classifications: PART I and PART II Crimes. Offense and arrest data are reported for all PART I crimes; however, it is important to recognize that the UCR system tabulates arrest data only for PART II Crimes. Another point to remember is that the UCR system does not differentiate between felonies and misdemeanors, degrees of criminal acts, and other distinctions made by state penal codes. Further, it must be noted that the UCR system records all arrests, irrespective of whether the person arrested is subsequently found not quilty in a court of law.

UCR guidelines do allow for deletion of offenses which are subsequently found to have been "unfounded" complaints, and tabulates all PART I Crimes which are cleared by arrest or other means. The UCR system also established a "hierarchy" among the seven PART I Crimes; in the case of multiple offenses, the crime considered to be more serious is counted. An exception to the hierarchy rule is in the case of Arson. If an Arson is perpetrated concurrent with another crime, both the Arson and other crime are scored.

PART I CRIMES (defined in the analysis of each Part I Crime) include the following seven offenses: MURDER; RAPE; AGGRAVATED ASSAULT; BURGLARY; LARCENY; and MOTOR VEHICLE THEFT.

PART II CRIMES include the following twenty-two offenses: OTHER ASSAULTS; ARSON; FORGERY & COUNTERFEITING; FRAUD; EMBEZZLEMENT; STOLEN PROPERTY—BUYING, SELLING, RECEIVING; VANDALISM; WEAPONS—CARRYING, POSSESSING, ETC.; PROSTITUTION & COMMERCIALIZED VICE; DRUG ABUSE VIOLATIONS; GAMBLING; OFFENSES AGAINST FAMILY & CHILDREN; DRIVING UNDER THE INFLUENCE: DISORDERLY CONDUCT; VAGRANCY; ALL OTHER OFFENSES (except Traffic); SUSPICION (adults only); CURFEW & LOITERING VIOLATIONS (juveniles only); and RUNAWAYS.

LIMITATIONS REGARDING THE ANALYSIS AND INTERPRETATION OF CRIME DATA

The UCR system strives to achieve a uniform, standardized data base for all serious crimes. Care and caution should be exercised, however, in making comparisons between year-to-year fluctuations, indexes, or rates of crime per population group, as well as any difference in crimes reported by one agency or another. Fluctuations can be attributed to real crime; e.g. modifications in the record-keeping and reporting practice of a police department, fraudulent reporting of property offenses for insurance purposes, etc.

The primary limitation of the UCR system nonetheless, is attributable to the fact that as much as forty percent of the crimes committed are never reported by citizens, as testified to by reliable victimization studies.

STATE OFFENSE DATA

A total of 114,565 PART I Crimes were reported to the police during 1986, an increase of 5,953 serious crimes compared with 1985. This represents an overall increase of 5.5%.

Murder, the least frequently reported PART I Crime, did not change. The crime of Robbery, however, increased significantly (+9.4%).

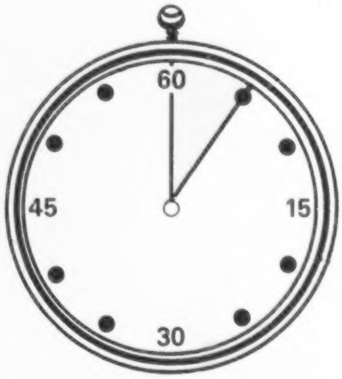
Rape increased by 8.1%; Aggravated Assault rose 11.5%.

Burglary (+7.5%) and Larceny Theft (+4.2%) rose, but Auto Theft remained relatively the same as in 1985.

Together, Larceny Thefts and Burglaries accounted for 82.9% of all PART I Crimes.

Part I Crimes	**Offenses Reported**		Percent	
Classification	Comparison		Change	
	1985	1986	1986/1985	
MURDER	253	253	**NC**	**0.2**
RAPE	789	853	+8.1	0.7
ROBBERY	2,799	3,063	+9.4	2.7
AGGRAVATED ASSAULT	7,374	8,221	+11.5	7.2
BURGLARY	28,410	30,554	+7.5	26.7
LARCENY THEFT	61,877	64,467	+4.2	56.3
AUTO THEFT	7,108	7,154	+0.6	6.2
TOTAL	108,610	114,565	+ 5.5	

A SERIOUS CRIME OCCURS IN KENTUCKY every 5 MINUTES



A detailed analysis of each PART I Crime can be found in the sections of this report titled Murder, Rape, etc.

CRIME RATE

The Crime Rate, or "crime index" is derived from the following formula: population divided by 100,000 = X; number of offenses divided by X = crime rate.

The chart below shows the estimated 1986 population for each Area Development District and the State total, with the crime index computed for Total Part I Crimes, Violent Crimes, and Property Crimes.

Area Development District	1986 Population	Total PART I Crimes	RATE	Violent CRIMES	RATE	Property Crimes	RATE
Purchase	179,069	5,824	3253.6	798	445.8	5,026	2807.8
Pennyrile	202,541	5,385	2665.8	637	315.3	4,748	2350.4
Green River	204,827	6,441	3157.3	530	259.8	5,911	2897.5

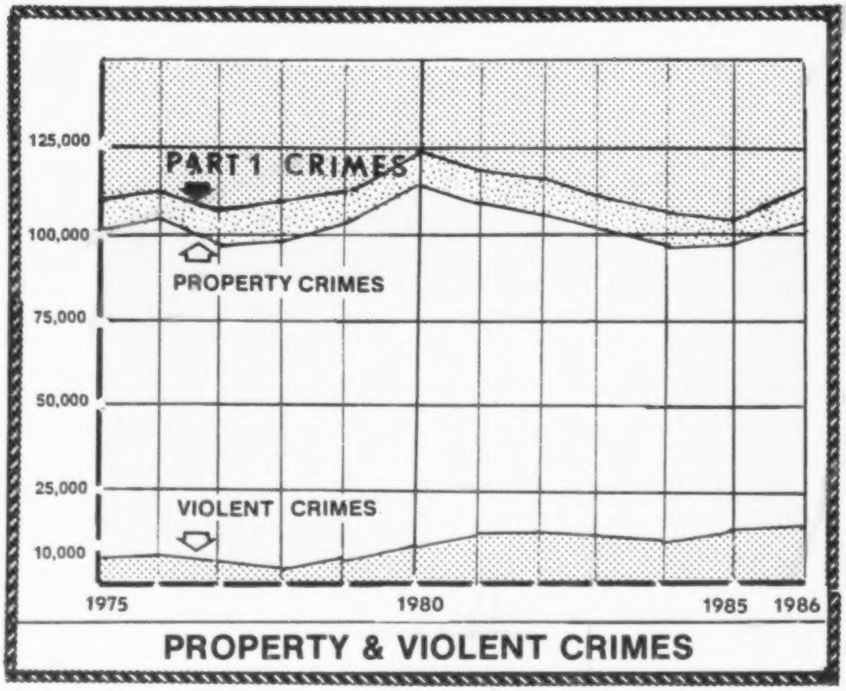
TOTAL for KENTUCKY	3,750,311	114,565	3055.0	12,390	330.4	102,175	2724.6

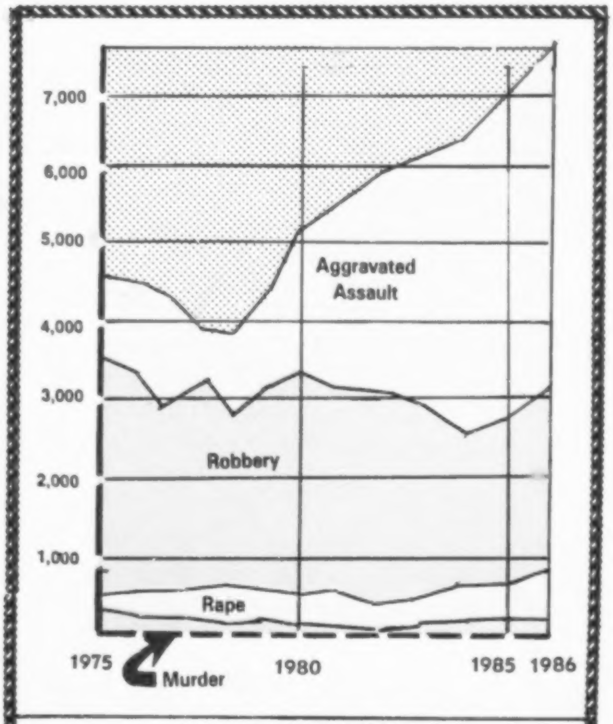
CRIME TRENDS: Annual fluctuations in the number of reported crimes can be attributed to a variety of factors, including improved reporting and increased awareness and cooperation between citizens and police. Such factors notwithstanding, "patterns" and "trends" can be depicted, as shown in the graphs.

The right-hand graph plots total PART I crimes, violent crimes, and property crimes, 1975 to 1986. A dramatic increase in overall PART I crimes occurred between 1978 and 1980, and then began to decline steadily until 1985.

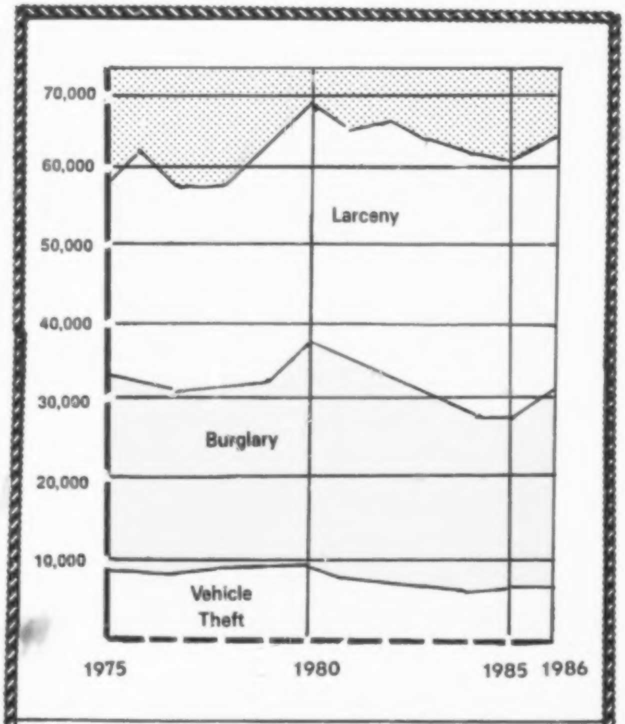
As shown in the graphs below each of the violent crimes reflect unpredictable patterns, except Aggravated Assault, which has shown steady increases each year. Property crimes, however, generally follow similar trends. Larceny, Burglary, and Auto Theft peaked in 1980, declined between 1981 and 1984, and began to rise again in 1985 and 1986.



PROPERTY & VIOLENT CRIMES



VIOLENT CRIMES



PROPERTY CRIMES

OFFENSE DATA — 1986

URBAN/COUNTY — MID. SMALL, RURAL, CITY/COUNTY — CAMPUS CRIME

A comparison of PART I Crimes in Kentucky's urban, rural, and campus jurisdictions is depicted in the right-hand chart. PART I Crimes are tabulated for each URBAN/COUNTY (counties with cities of the first, second, and third class) in the chart below.

The thirteen Urban/Counties represent 45.8% of Kentucky's population and 68.4% of all PART I Crimes. Rural areas reflect 54.2% of the state's population, but reported 29.5% of the PART I Crimes. PART I Crimes reported by the seven Universities in the UCR system, reported 2.1% of the state's total offenses.

PART I CRIMES	URBAN COUNTY %	MID SMALL RURAL COUNTIES %	CAMPUS %
MURDER	50.6	49.4	00.0
RAPE	60.1	39.4	00.5
ROBBERY	88.9	10.7	00.4
ASSAULT	54.9	43.3	01.8
BURGLARY	65.2	34.3	00.5
LARCENY	71.2	25.6	03.2
AUTO THEFT	66.0	33.3	00.7
TOTAL	68.4	29.5	02.1

Percentages do not equal 100% due to rounding. Campus Crime data was extracted from Urban/Counties and includes only those Universities with law enforcement agencies which report offense data through the UCR system: University of Kentucky, University of Louisville, Northern Kentucky, Eastern Kentucky, Morehead State, Murray State, and Western Kentucky Universities.

BREAKDOWN OF URBAN/COUNTY PART I OFFENCES

CITY/COUNTY	MURDER	RAPE	ROBBERY	ASSAULT	BURGLARY	LARCENY THEFT	AUTO THEFT	TOTAL

RADCLIFF/ELIZABETHTOWN & Hardin County	4	18	18	129	410	1,080	122	1,781

CLEARANCE RATES
1980 - 1986

Clearance rates are depicted in the chart below for a seven year period, 1980 through 1986. Clearance rates are the percentage of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

	MURDER	RAPE	ROBBERY	ASSAULT	BURGLARY	LARCENY	AUTO THEFT	TOTAL
1980	83.8	63.8	30.9	64.5	14.2	16.2	13.6	18.0
1981	83.4	54.7	27.6	63.2	13.8	17.1	13.5	18.7
1982	85.4	66.1	29.6	67.8	16.5	17.7	16.7	20.6
1983	86.5	66.9	31.9	69.3	16.2	18.9	16.7	21.6
1984	86.6	67.2	30.6	71.7	18.2	21.3	19.4	24.1
1985	87.7	68.2	30.0	68.8	16.8	23.0	17.9	24.9
1986	84.6	67.8	29.9	68.8	16.4	22.4	18.9	24.6

The right hand column compares clearance rates for each PART I Crime, showing juvenile versus adult involvement.

The percentage of juvenile versus adult involvement in those offenses with a high clearance rate fairly reflects the actual percentage of juveniles who commit those offenses.

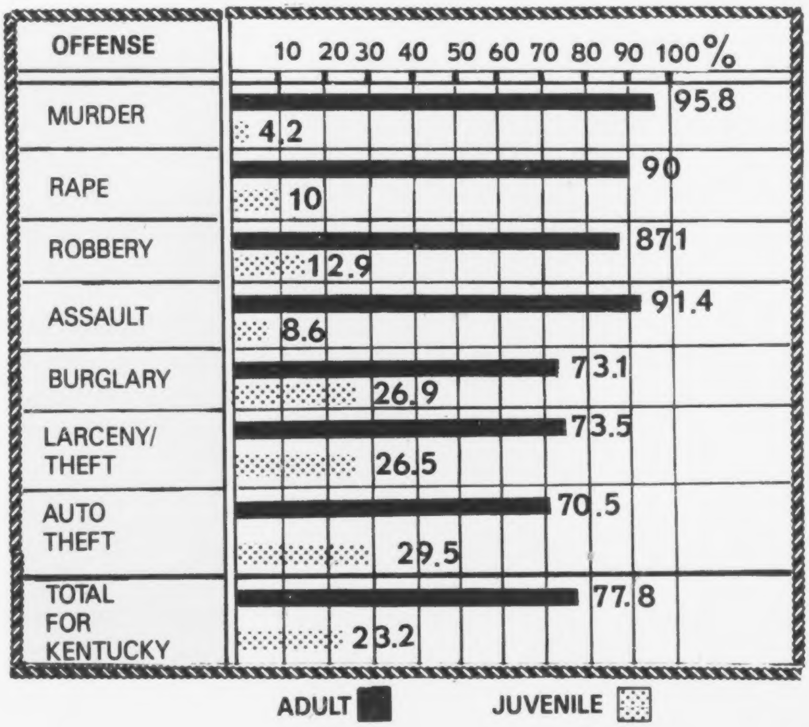
In the case of robbery and property crimes, however, the clearance rates do not necessarily portray the percentage of involvement of juveniles - due to the fact that relatively few of those offenses are cleared by arrest.

Burglary, Larceny, and Auto Theft arrests clearly indicate that a large number of juveniles are involved in these offenses. Approximately one fourth of all arrests for burglary, larceny, and auto theft are "juvenile arrests."

Relatively few juveniles are arrested for Murder, Rape, Robbery, and Assault.

PERCENT OF ADULT JUVENILE INVOLVEMENT IN TOTAL INDEX OF OFFENSES CLEARED

PART 1 CRIMES



CLEARANCE RATES

The Chart and Map below depict clearances of PART I Crimes for each of Kentucky's Area Development Districts. Clearance rates, arrived at by comparing the total number of offenses with the number of cases cleared by arrest or exceptional means, range from a low of 18.7% to a high of 49.0%.

	Actual PART I OFFENSES	Cases Cleared		% Cleared by	
		Number	Percent	Adult	Juvenile
Purchase	5,824	1,448	24.9	82.5	17.5

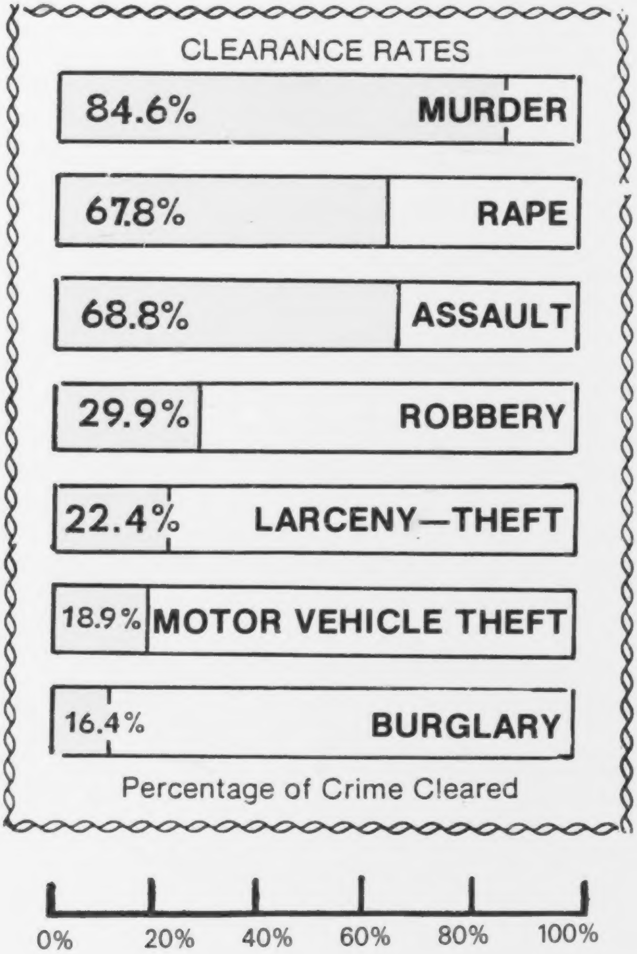
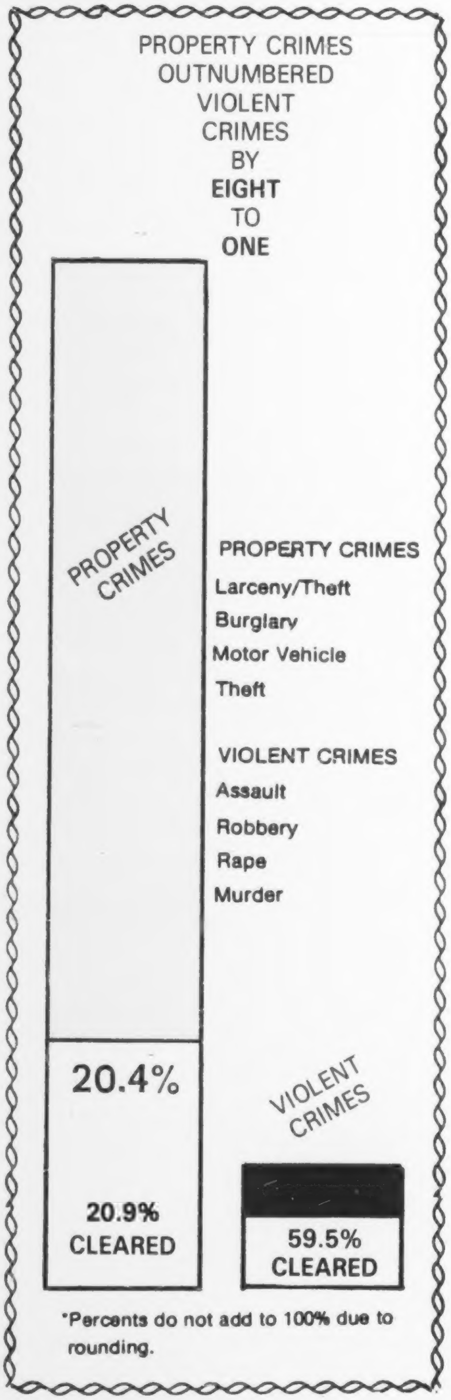
CLEARANCE RATES
Property vs. Violent Crimes

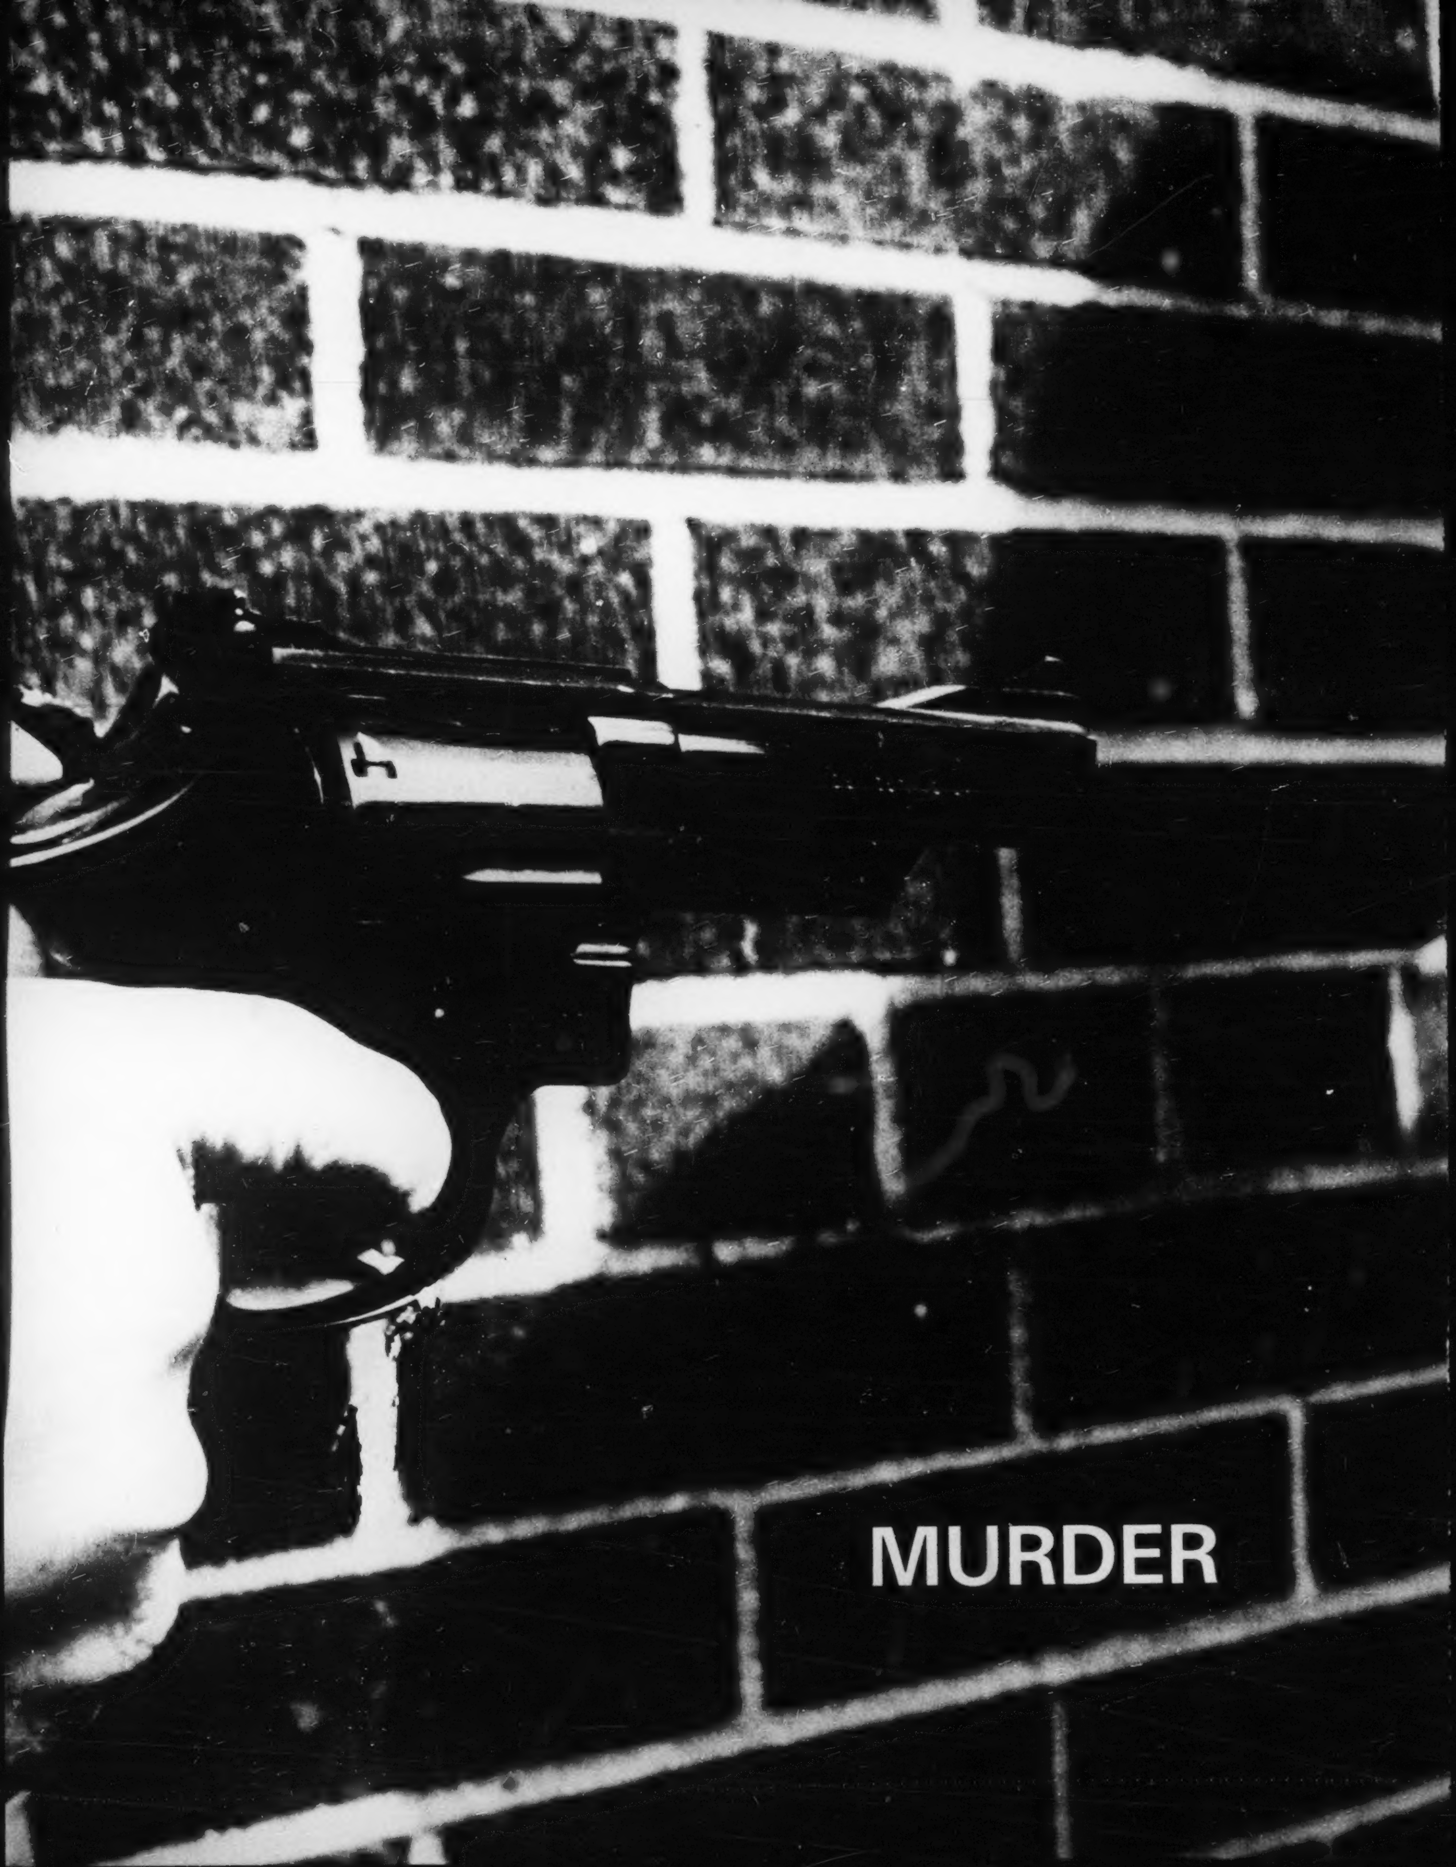
The right-hand chart depicts the relative clearance rates of property versus violent Part I Crimes. Property crimes, which outnumber Violent crimes by eight to one, show an overall clearance rate of 20.4%. The overall clearance rate for Violent crimes is 59.5%.



The chart above depicts relative clearance rates for each of the seven Part I Crimes.



*Percents do not add to 100% due to rounding.



MURDER

MURDER IN KENTUCKY
1986

DEFINITION

Murder is the unlawful killing of a human being with malice of aforethought. All homicides due to a fight, argument, quarrel, assault, or commission of another crime are included. Offense data for murder include only those offenses known to the police irrespective of arrest, arraignment, and conviction data. Traffic deaths due to negligence are not included under murder but are counted under manslaughter by negligence. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder category.

NUMBER REPORTED	CLEARANCES	RATE
253	214	84.6%

Murder is the most serious of all PART I Crimes. Of the 253 criminal homicides reported in Kentucky, 214 were cleared by arrest or exceptional means. The 84.6% clearance rate for Murder is the highest of all Part I Crimes. Although some murders are difficult to solve, the intensity of police investigations together with solvability factors account for the high clearance rate for Murder.

As depicted in the map (below), each of Kentucky's Area Development Districts reported murders during 1986, with a range of one murder in the Buffalo Trace area to a high of sixty-two in the KIPDA Area.

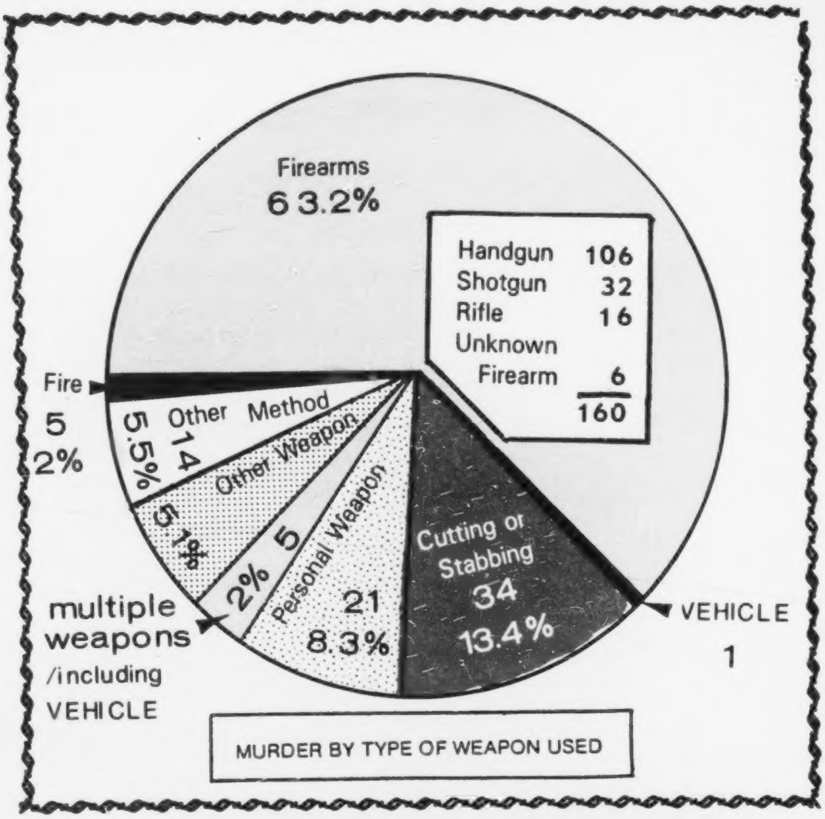
MURDER WEAPONS:

A firearm was used in 160 (63.2%) of the murders perpetrated in Kentucky during 1986. Handguns accounted for 66.2% of the murders resulting from a firearm.

A knife or other sharp instrument was used in 13.4% of the 1986 murders.

Weapons other than firearms and knives used in 1986 Murders included fire, and blunt instruments (clubs, car tools, chain, shovel, and a shoe heel); other methods used included beating, drowning, and smothering.



MURDER BY TYPE OF WEAPON USED

MURDER CIRCUMSTANCES:

The circumstances precipitating Murder can be categorized as felony or non-felony type murders. Forty-six incidences (18%) were felony-type murders (perpetrated in the commission of a serious crime such as robbery, rape, etc.)

156 murders were precipitated by arguments, fights, quarrels, or brawls, representing 62% of all 1986 Murders.

In 34 incidences (13%), the circumstances surrounding the Murder were unknown.

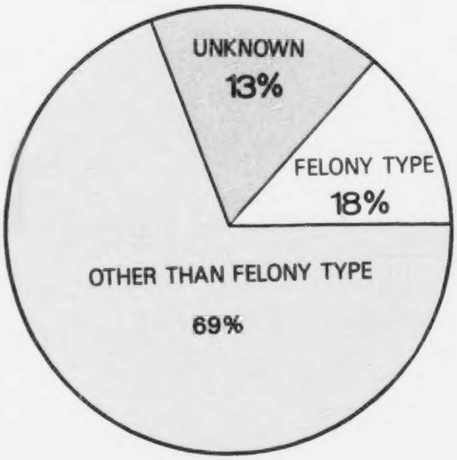
MURDER CIRCUMSTANCES



MURDER VICTIMS

The age, sex, and race of Kentucky's 253 Murder victims are shown in the right-hand chart. 71.5% of the victims were male, 28.5% female; 75.9% were white, and 24.1% were black.

51.8% of Kentucky's murder victims were between the ages of twenty and thirty-nine. 25.3% of the 1986 murder victims were between the ages of forty and fifty-nine. 11.1% of the victims were sixty years of age or older; five victims were four years of age or younger.

MURDER VICTIMS BY AGE, SEX, AND RACE

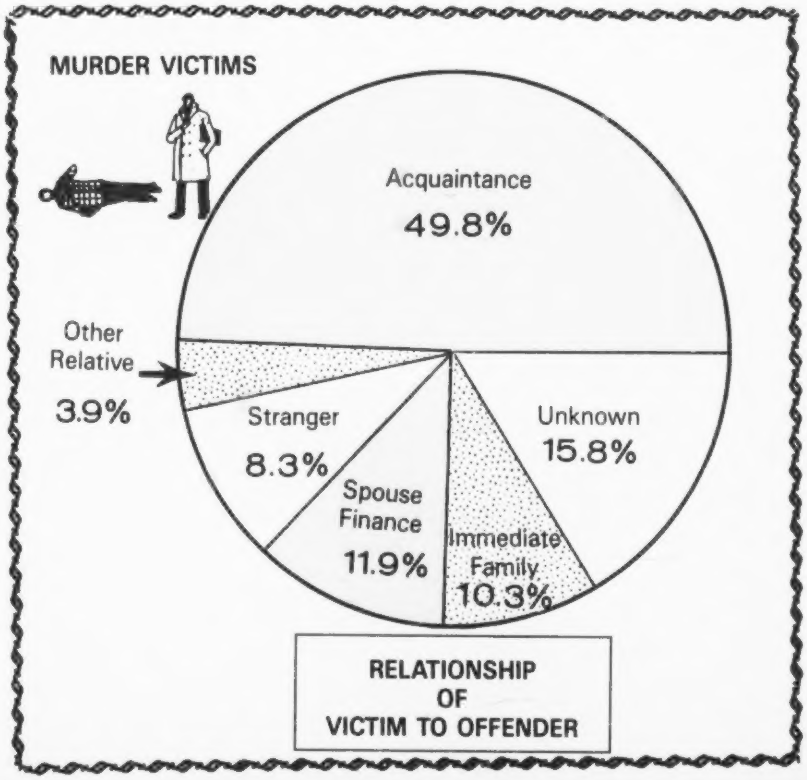
RELATIONSHIP OF VICTIM TO OFFENDER

In 75.9% of all Murder cases during 1986, the victim was known to the offender. In only 8.3% of the incidences was the offender a stranger.

In 15.8% of Kentucky's Murder cases there is no reliable information regarding the relationship of the victim to the offender.

Due to the high number of murder cases in which the victim and offender are related or acquainted, investigations of most murders result in a clearance by arrest.



PERSONS ARRESTED FOR MURDER — 1986

261 persons were arrested for Murder during 1986. Of those arrested, 85% were male; 14.9% were female; 72.8% were white; 94.6% were adults; and 5.4% were juveniles.

Of the adults arrested for murder, 86.2% were between the ages of eighteen and forty-four. Eleven of the fourteen juveniles arrested for murder were between the ages of fifteen and seventeen; three juveniles were between the ages of eleven and fourteen.

73.6% of the persons arrested for murder were white; 27.5% were non-white; 1.2% were hispanic.

AGE OF VICTIMS AND OFFENDERS

The graph below depicts the ages of victims in direct comparison with the ages of known offenders, using six categories (infants, children, teenagers, young adults, middle age adults, and older adults) to match the victim and the offender.

The right-hand chart lists the number of victims and offenders within specified age categories. The predominant age category for 1986 murder victims was 25-29 years of age; the predominate age categories for offenders (known at the time the homicide report was submitted) were 20-24 years old and 30-34 years old. It can also be noted that 64% of all 1986 murder victims were below the age of 40, and 76% of all known offenders were under 40.

It can be noted that all 5 **infants** were murdered by young adults. No children (age 2-12) were murdered. Of the 25 **teenage murder victims**, 1 was murdered by a child; 8 victims were murdered by other teenagers; 11 victims were murdered by young adults; and 4 victims were murdered by middle age adults. Among the 98 **young adult murder victims**, 52 were murdered by young adults; 8 victims were murdered by teenage offenders; and 3 by older adults. 31 of the 86 **middle age murder victims** were murdered by young adults, 8 by teenage offenders, and 3 by older adults. Of the 39 **older adult murder victims**, 16 were murdered by young adults; 4 by middle age adults; and 6 by older adults.

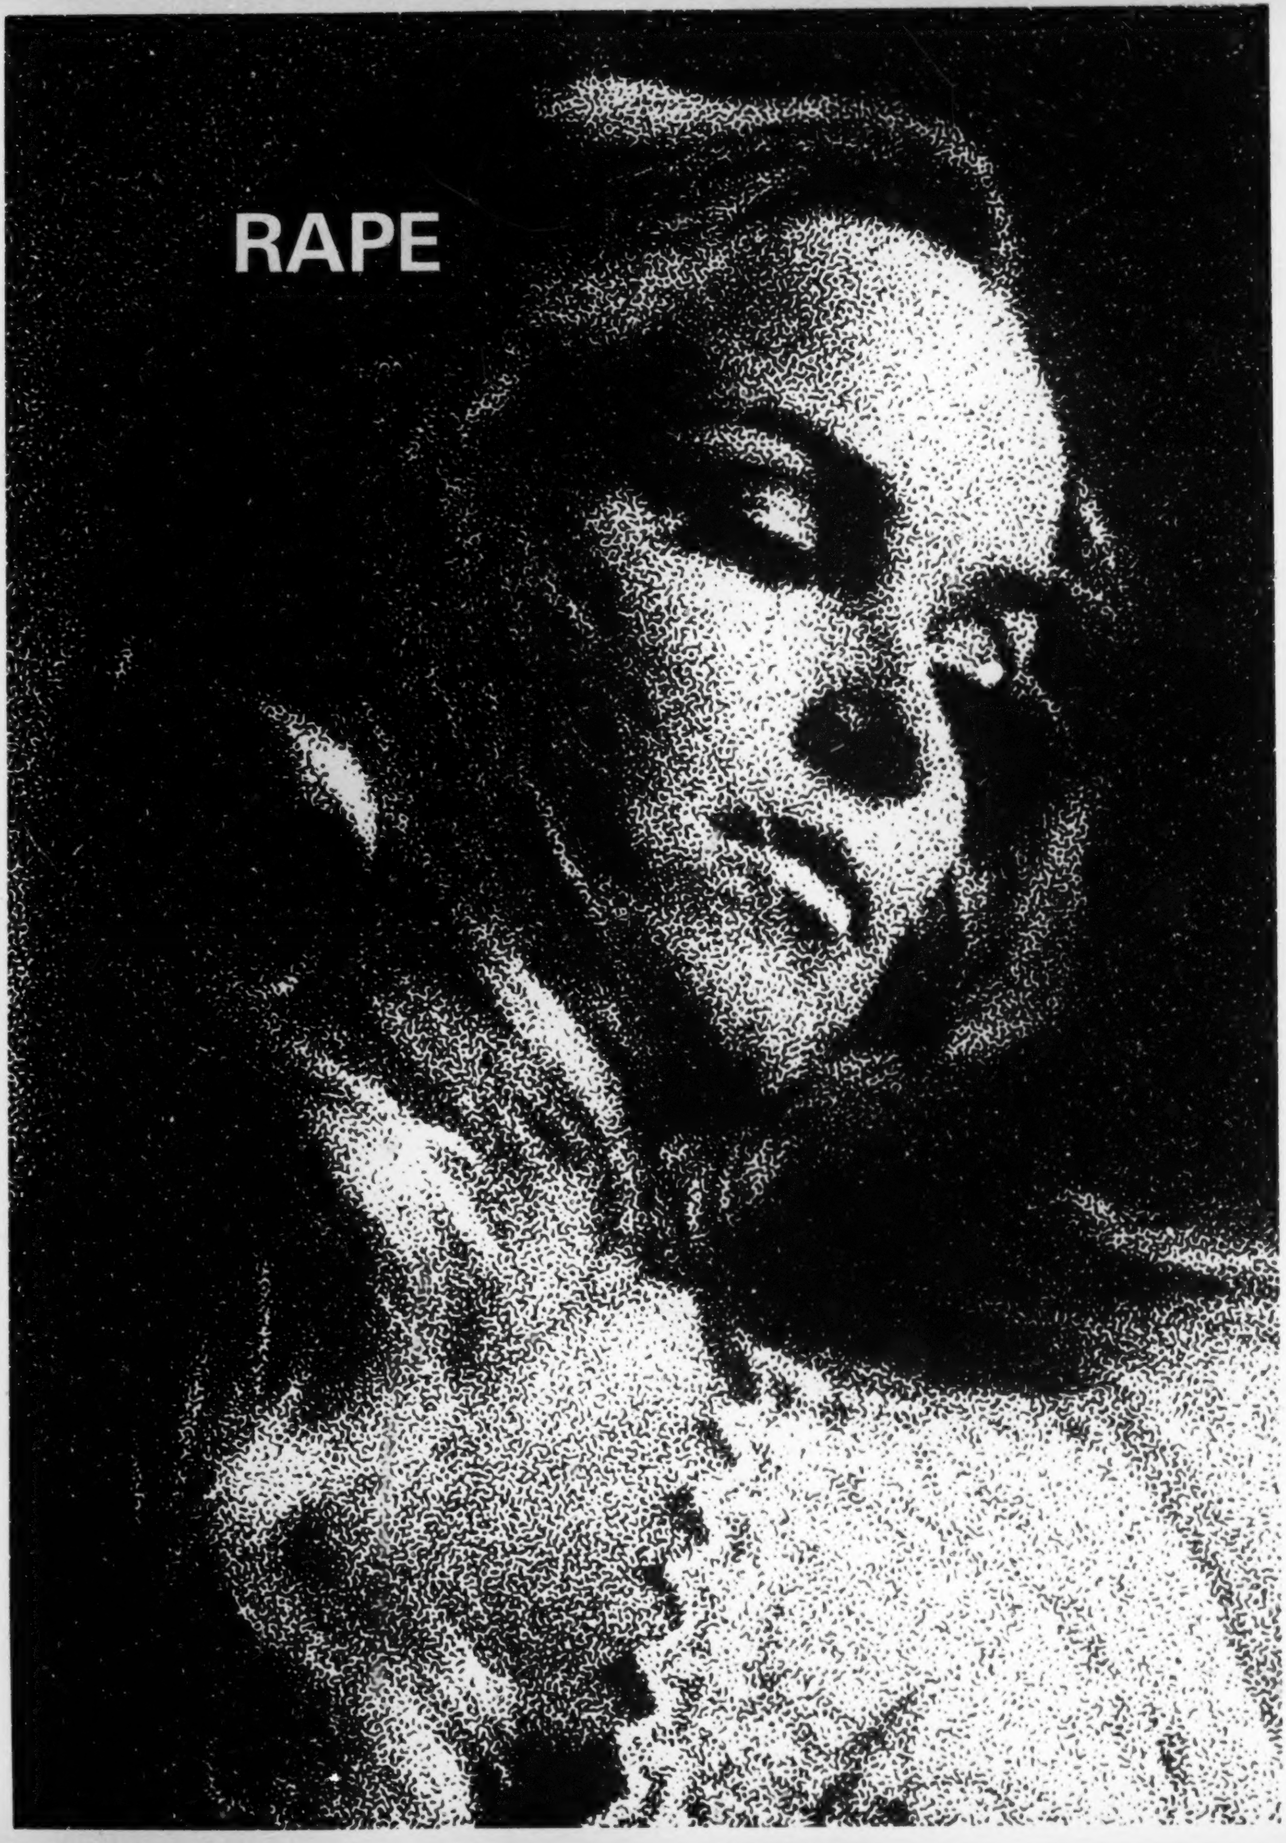
RAPE



RAPE IN KENTUCKY — 1986

DEFINITION

Rape is defined as the carnal knowledge of a person forcibly and against the person's will. Only "forcible" rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are statutory rapes (rape of a female victim who is "under age" when no force is used), carnal abuse, and other sex offenses.

NUMBER REPORTED	CLEARANCES	RATE
853	578	67.8%

853 Rapes were reported to the police during 1986. 578 of the reported rapes were cleared by arrest or exceptional means. The 67.8% Clearance Rate is high when compared with property and other offenses. One explanation for the many rapes cleared is the fact that the victim and the offender are frequently acquaintances or even related.

48.3% of the reported Rapes occurred in the KIPDA and Bluegrass Area Development Districts. However, as indicated in the map (below) Rapes were reported in all of Kentucky's Area Development Districts, with the Buffalo Trace, Gateway, Kentucky River, FIVCO and Lake Cumberland Districts reporting minimal numbers of Rapes.

THE RELATIONSHIP OF RAPE OFFENDERS TO VICTIMS

The analysis of Rape is based on a sample of 253 Rapes reported to the Kentucky State Police. As shown, strangers and unknown perpetrators accounted for 13% of these sample cases. In 87% of the cases the victim and offender were acquaintances (38%) or relatives (51%).

83% of the victims were single. 8% were divorced. In only 9% of the sample cases were Rape Victims married.

While these cases represent 27% of all Rapes reported in Kentucky during 1986, the selected sample is fairly consistent with national and other studies which point to the frequency of Rape among acquaintances and relatives. Single women are victimized more frequently than are married or divorced persons.

As depicted, 58% of the rape victims in the sample were sixteen years old or younger; with 43% of the victims fourteen and under and 15% aged fifteen or sixteen. 25% of the offenders were between the ages of nineteen and thirty-five.

53% of the rape victims were in a residence when the offense occurred.

Although a weapon was used as a "threat" in 75% of the sample incidences, relatively few of these incidences involved a gun or knife. 10 victims were raped at gunpoint; 11 with a knife.

A small percentage of both offenders and victims were under the influence of alcohol or drugs. 37% of the victims were injured, with 76% requiring medical attention.

PERSONS ARRESTED FOR RAPE — 1986

489 persons were arrested for Rape during 1986. 99.6% of those arrested were male; 71.0% were white; 29.0% were black; 90.0% were adults; and 10.0% were juveniles.

Of the adults arrested for Rape 70% were between the ages of eighteen and thirty-four. 84% of the 49 juveniles arrested for Rape were between the ages of fifteen and seventeen.

37.2% of all arrests for Rape were reported by agencies in the KIPDA and Bluegrass Areas.

ROBBERY

ROBBERY IN KENTUCKY — 1986

DEFINITION

Robbery is the felonious and focible taking of the property of another against his will by force or the threat of force or violence and/or by putting the victim in fear. All assaults and attempts to rob are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

NUMBER REPORTED	CLEARANCES	RATE
3,063	915	29.9%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. Of the 3,063 armed and strong-arm robberies which were reported during 1986, 915 offenses were cleared by arrest or exceptional means. The 29.9% clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low by comparison with Murder, Assault, and Rape - in which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim.

As depicted in the map (below) more than half (63%) of the robberies reported in 1986 occurred in the KIPDA Area Development District, 15% in the Bluegrass Area, and 7% in the Northern Kentucky Area - Kentucky's largest population centers.

ROBBERY — PLACE OF OCCURRENCE

Classification	Number of Offences	Percent of Distribution	Total Value	Average Value
Highway	1,373	44.8	$ 461,777	$ 336
Commercial House	516	16.8	197,803	383
Gas-Service Station	163	5.3	44,624	273
Chain Store	231	7.5	252,813	1,094
Residence	354	11.6	386,267	1,091
Bank	46	1.5	167,363	3,638
Miscellaneous	380	12.4	227,483	598
TOTAL for Kentucky	3,063	100.0	1,738,130	567

As shown in the above chart, the most frequent location where robbery occurs in Kentucky is the highway or street. In many instances, the victim is robbed at gun-point or with another weapon while stopped on the roadway, or when stopping to assist another motorist he "assumes" requires assistance. The fact that 44.8% of the robberies which occurred during 1986 were "highway robberies" points to the need for citizens to be extremely cautious when experiencing a breakdown or another problem which requires assistance.

Commercial house robberies account for 16.8% of the incidents reported during 1986. These incidences would include hotels, motels and other similar places of business.

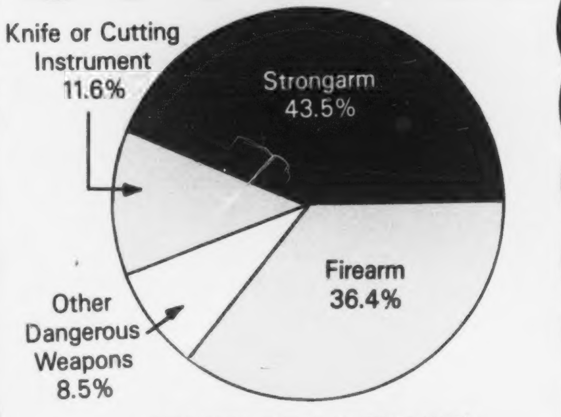
Residences are the third most frequent location for robbery, with 11.6% of the incidences reported during 1986.

Chain store robberies (7.5%) occur mostly in "convenient type" stores.

The average amount of money or property stolen in robberies is minimal when compared with the life-threatening stiuation for the victim. It should be noted that twenty-three persons were killed in armed robberies during 1986. Since these offenses were classified as Murders they are not included in the robberies reported.

WEAPON USED IN ROBBERY

A firearm was used in 1,115 of the reported Robberies during 1986, or 36.4% of the time. Strongarm tactics (hands, fists, feet) were used in 1,331 incidences, or 43.5%. A knife or other type of cutting instrument was used in 355 incidences, or 11.6%. Other dangerous weapons, such as clubs, sticks, etc. accounted for 262 incidences, or 8.5%.



WEAPON USED IN ROBBERY

PERSONS ARRESTED FOR ROBBERY — 1986

981 individuals were arrested for Robbery during 1986. 91% of those arrested were male; 52.2% were white; 47.8% were black; 87.5% were adults; and 12.5% were juveniles.

88.5% of the adults arrested for Robbery were between the ages of eighteen and thirty-four. 86.2% of the juveniles arrested were between the ages of fifteen and seventeen.

50% of all arrests for Robbery were reported by agencies in the KIPDA Area Development District; 12% were in the Bluegrass Area Development District.

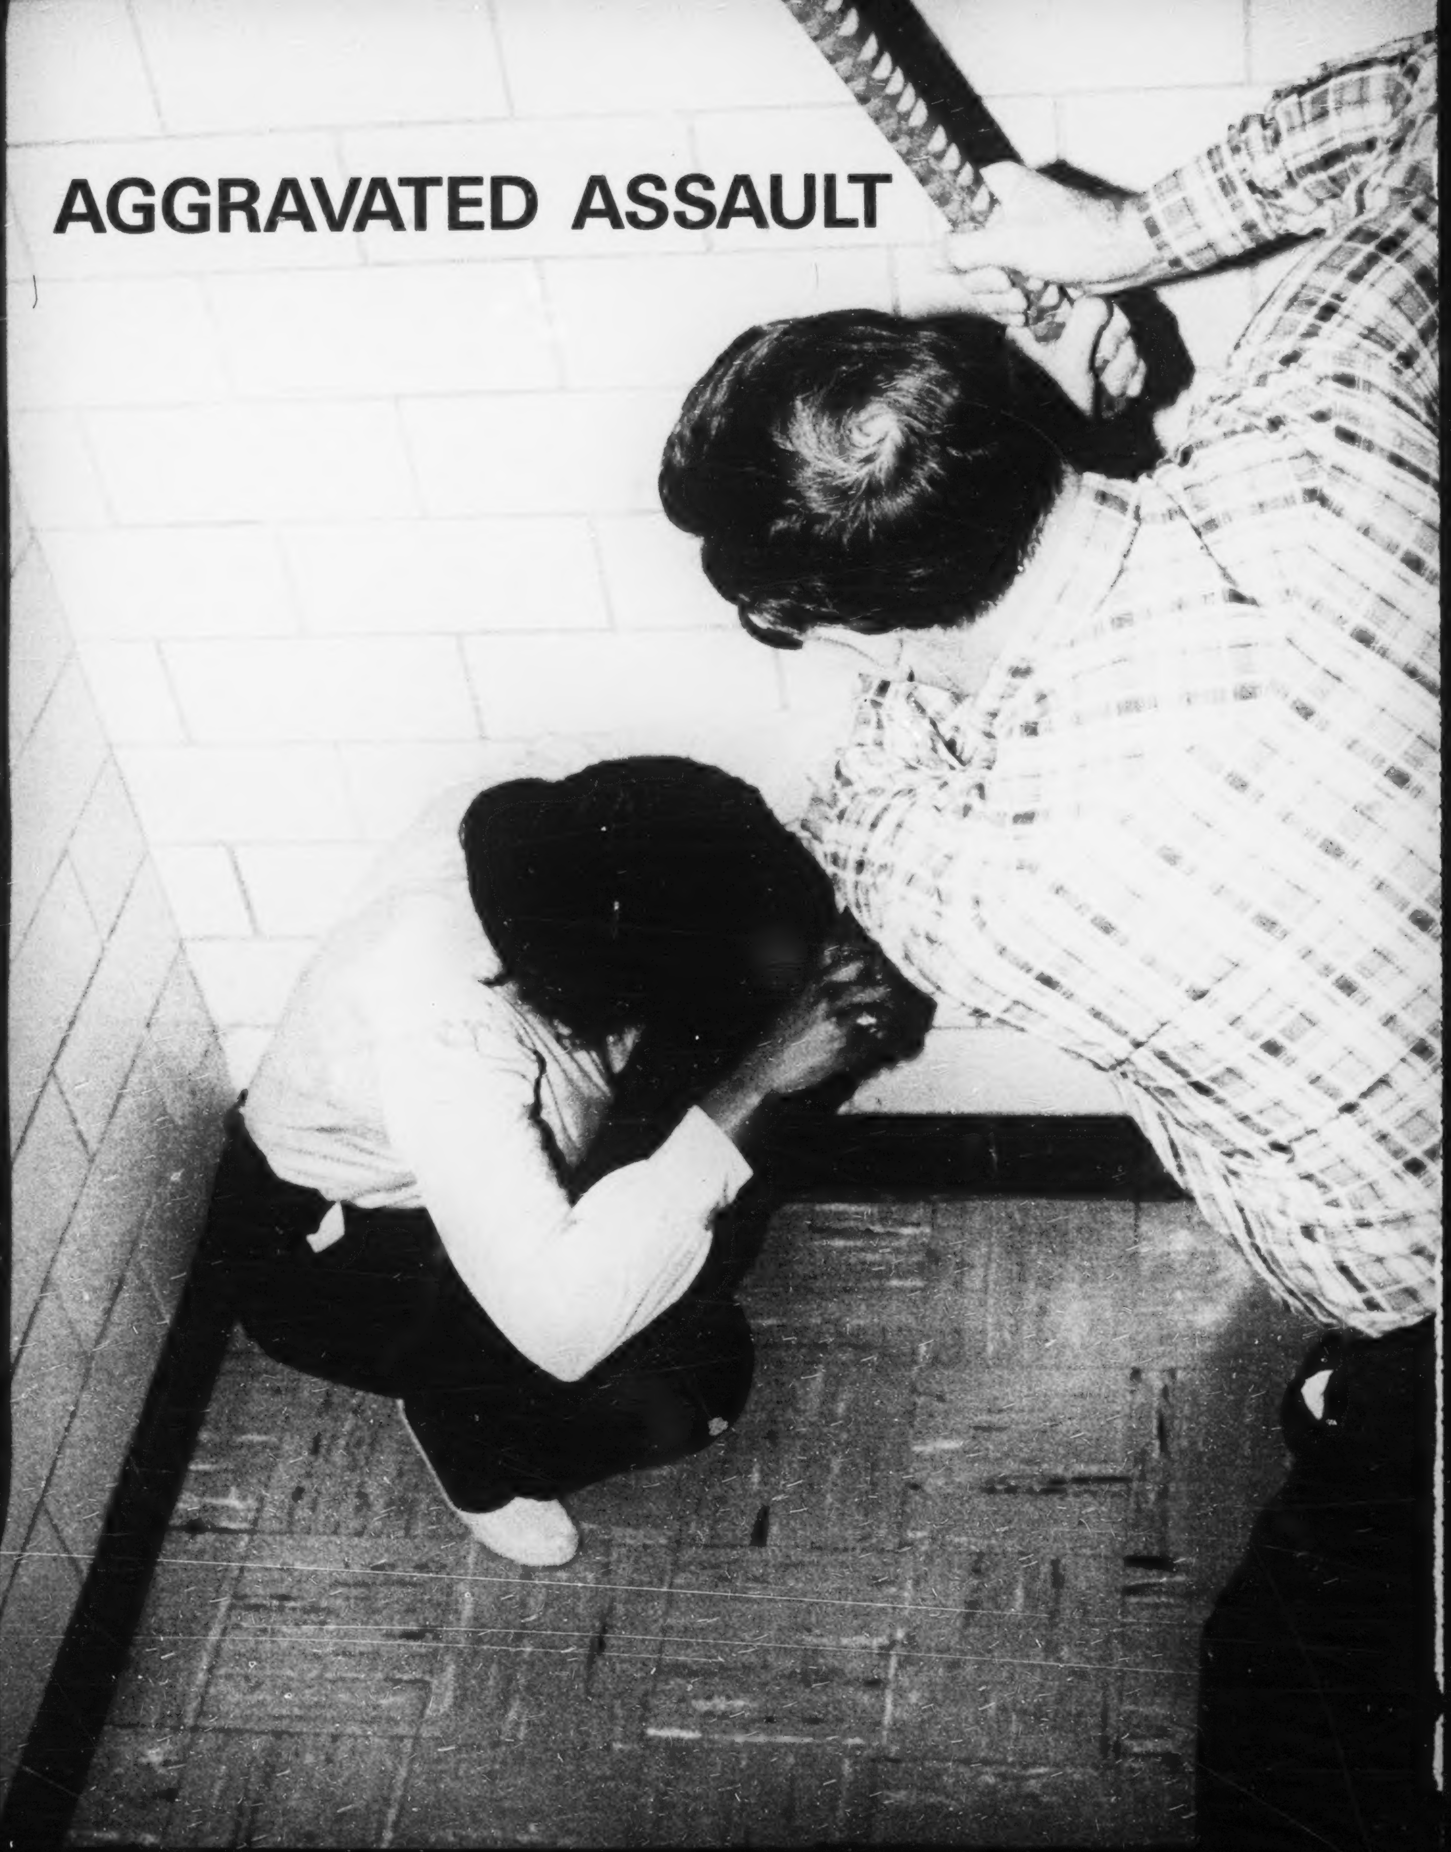
AGGRAVATED ASSAULT



AGGRAVATED ASSAULT — 1986

DEFINITION

Assault in the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury results from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all attempts to assault when serious injury would have been likely are included. Excluded from the Part I Crime of "aggravated assault" are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury. These "simple assaults" are counted as Part II Crimes.

NUMBER REPORTED	CLEARANCES	RATE
8,221	5,659	68.8%

Included in the 8,221 Aggravated Assaults reported during 1986 are those attacks resulting in serious or "aggravated" bodily injury as well as those in which a dangerous weapon was used but no serious injury resulted. Because the victim is frequently related to or an acquaintance of the perpetrator, the clearance rate for Aggravated Assault is high (68.8%).

As indicted in the map below, substantial numbers of Aggravated Assault occurred in each of Kentucky's Area Development Districts, with 48% reported in the KIPDA, Bluegrass, and Northern Kentucky areas where Kentucky's largest urban areas are located.

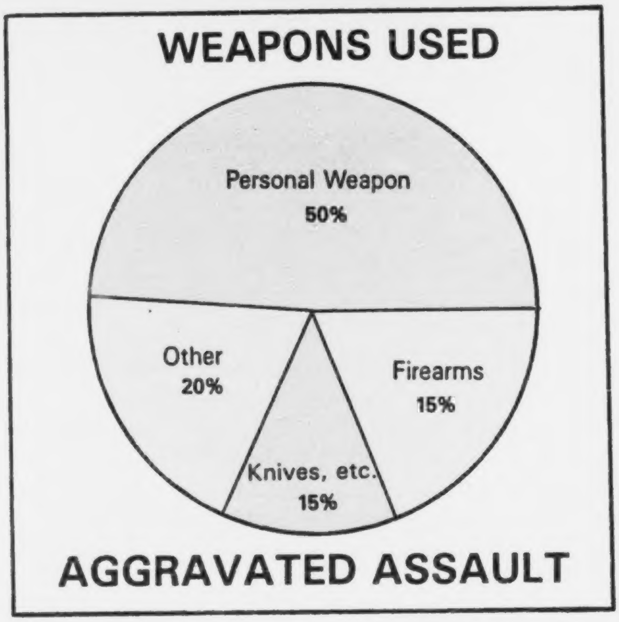
WEAPONS USED IN AGGRAVATED ASSAULT

The category of Aggravated Assault includes the following offenses: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; mayhem, maiming, assault with explosives; and all attempts to commit the foregoing offenses.

It should be noted that it is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.



WEAPONS USED

AGGRAVATED ASSAULT

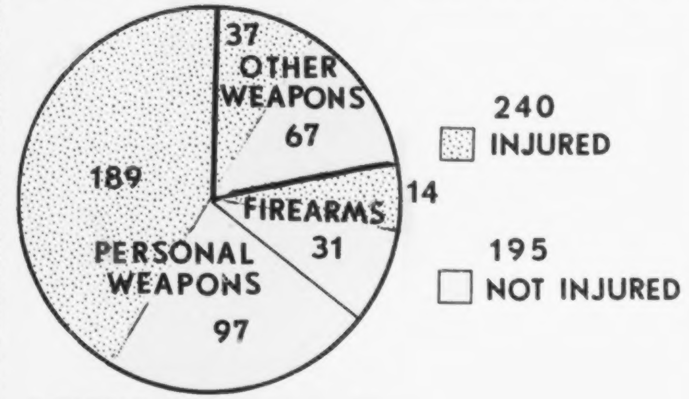
As shown in the above chart, 15% of the Aggravated Assaults reported involved the use of a firearm. Knives or other cutting instruments were used in 15% of the incidences. Other dangerous weapons, such as clubs, bottles, and other blunt instruments, were used in 20% of the cases investigated. Other dangerous weapons would also include attempts to maim or injure involving the use of poisons, explosives, and scalding water or burning.

The largest percentage of Aggravated Assaults involved the use of "personal" weapons such as hands, fists, feet, etc. which resulted in serious or aggravated injury to the victim. Personal weapons were used in 50% of the Aggravated Assaults reported during 1986. The assault was classified as Aggravated if the personal injury was, in fact, serious. The seriousness of the injury is the primary factor considered by the police in classifying an assault involving hands, fists, feet, etc. as an Aggravated Assault.

It should be noted that the 8,221 Aggravated Assaults reported to the police do not include "simple", or non-aggravated assaults, for which 4,886 persons were arrested during 1986. These other assaults include all assaults which do not involve the use of a firearm, cutting instrument, or other dangerous weapon and in which there were no serious injuries to the victims. Included in these other assaults would be injury caused by culpable negligence, intimdiation, coercion, and all attempts to commit these offenses. Normally, if injury occurs, the injuries are not serious (abrasions, minor lacerations, or contusions) and require no more than first-aid treatment in the case of a simple or non-aggravated assault.

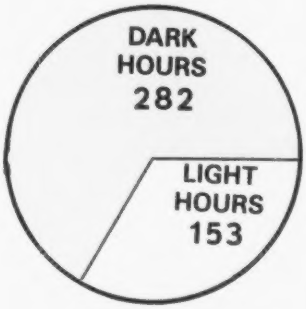
POLICE OFFICERS ASSAULTED

During 1986, 435 Assaults on Police Officers occurred, resulting in injury to 240 officers. As depicted below, personal weapons (hands, fists, feet) were involved in a vast majority of assaults on police officers. 65% of the assaults occurred during dark hours.



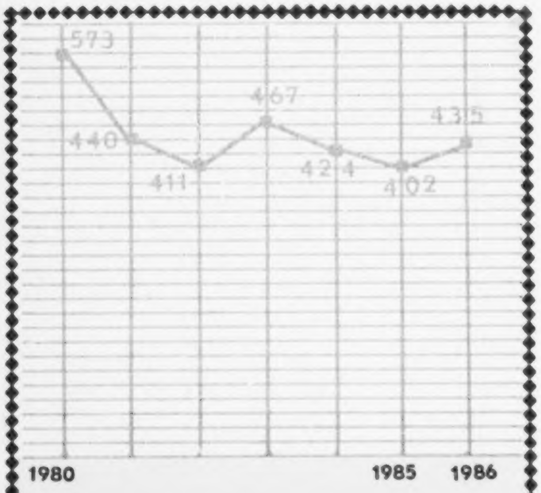
WEAPONS USED IN ASSAULTS ON POLICE OFFICERS

TIME OF DAY



POLICE OFFICERS ASSAULTED

21.4% of the Assaults occurred on disturbance calls; 24.1% attempting arrests; 10.6% with a prisoner in custody; 25.5% in traffic pursuits or stops.



TRENDS IN ASSAULTS ON POLICE

TOTAL	**435**	

PERSONS ARRESTED FOR AGGRAVATED ASSAULT — 1986

4,838 persons were arrested for Aggravated Assault during 1986. 88% of those arrested were male; 79% were white; 93% were adults; and 7% were juveniles.

69% of the adults arrested for Aggravated Assault were between the ages of eighteen and thirty-four. 76% of the juveniles arrested for Aggravated Assault were between the ages of fifteen and seventeen.

19% of all Aggravated Assault Arrests were in the KIPDA Area Development District, which includes Louisville and Jefferson County.

BURGLARY

BURGLARY IN KENTUCKY — 1986

DEFINITION

Burglary is the unlawful entry of a structure with the intent to steal or commit another felony, including entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained). Thefts from premises with "open access" are not included. These thefts would be counted as larcenies.

NUMBER REPORTED	CLEARANCES	RATE
30,554	5,013	16.4%

30,554 Burglaries were reported during 1986. As with other property offenses, the clearance rate for Burglary is low. Only 5,013 cases (16.4%) of all the Burglaries reported were cleared by arrest or exceptional means. Included in the offense of Burglary are all unlawful entries into a home, business, or other structure whether the perpetrator entered by force, through an unlocked door, or concealment. Forced "attempts" are also included irrespective of whether entry was gained or not. Thefts from premises with open access (e.g. a store during business hours) are not included. Such thefts are counted as "Larceny-Thefts."

As indicated in the map below, burglary is a repeated occurrence in all of Kentucky's Area Development Districts.

THE COST OF BURGLARY IN KENTUCKY

Classification	Number of Offences	Percent of Distribution	Total Value	Average Value
Residential: Night	9,285	30.4	$ 7,232,203	$778
Day	7,675	25.1	$ 6,257,971	$815
Unknown	3,056	10.0	$ 2,195,887	$718
Sub-Total	**20,016**		**$15,686,061**	**$783**
Non-Residential: Night	6,739	22.1	$ 6,483,935	$ 962
Day	1,800	5.9	$ 1,493,737	$829
Unknown	1,999	6.5	$ 1,618,273	$809
Sub-Total	**10,538**		**$ 9,595,945**	**$910**
TOTAL FOR KENTUCKY	**30,554**		**$25,282,006**	**$827**

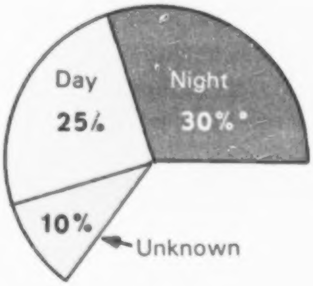
Right hand chart depicts percent (%) of total burglaries.

The reported value of property stolen in 1986 Burglaries was $25,282,006. The average loss per incident was $827, with the average value of property stolen in residential burglaries slightly lower than in non-residential burglaries.

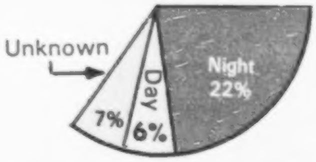
The value of property reported stolen for both residential and non-residential burglaries and the percentage of night vs. day vs. unknown times are plotted in the above chart.

The time of occurrence for residential and non-residential burglaries is shown separately in the right-hand chart. While the majority of burglaries occur during night-hours, in the case of non-residential burglaries 63.9% occurred at night - versus 46.4% of residential burglaries at night.

Burglary is a crime of "opportunity" and can be predicted to occur most frequently when the victim is not at home and the burglar can make his entrance quickly and quietly.



Residential Burglaries



Non-Residential Burglaries

PERSONS ARRESTED FOR BURGLARY — 1986

5,181 persons were arrested for burglary during 1986. 95% of those arrested were male; 82% were white; 65% were adults; and 35% were juveniles.

89% of the adults arrested for burglary were between the ages of eighteen and thirty-four.

69% of the juveniles arrested for burglary were between the ages of fifteen and seventeen.

26% of all burglary arrests were reported by law enforcement agencies in the KIPDA Area Development District, which also reported the largest number of juveniles arrested for burglary.

LARCENY IN KENTUCKY — 1986

DEFINITION

Larceny, or Larceny-Theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legitimately. The theft of automobiles, trucks, and other vehicles are classified separately. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny. All larcenies, irrespective of the value of property stolen, are included.

NUMBER REPORTED	CLEARANCES	RATE
64,467	14,441	22.4%

64,467 Larcenies were reported during 1986. Larceny is the most frequently occurring PART I Crime. Only 14,441 Larcenies were cleared by arrest or exceptional means. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low: 22.4%.

66% of the Larcenies during 1986, were reported by agencies in the KIPDA, Bluegrass, and Northern Kentucky Area Development Districts, Kentucky's most populated urban areas.

Larceny and theft mean the same thing in UCR Reporting, irrespective of the amount stolen in each incidence. Theft of motor vehicles are not included. However, theft of items from vehicles and their accessories are included.

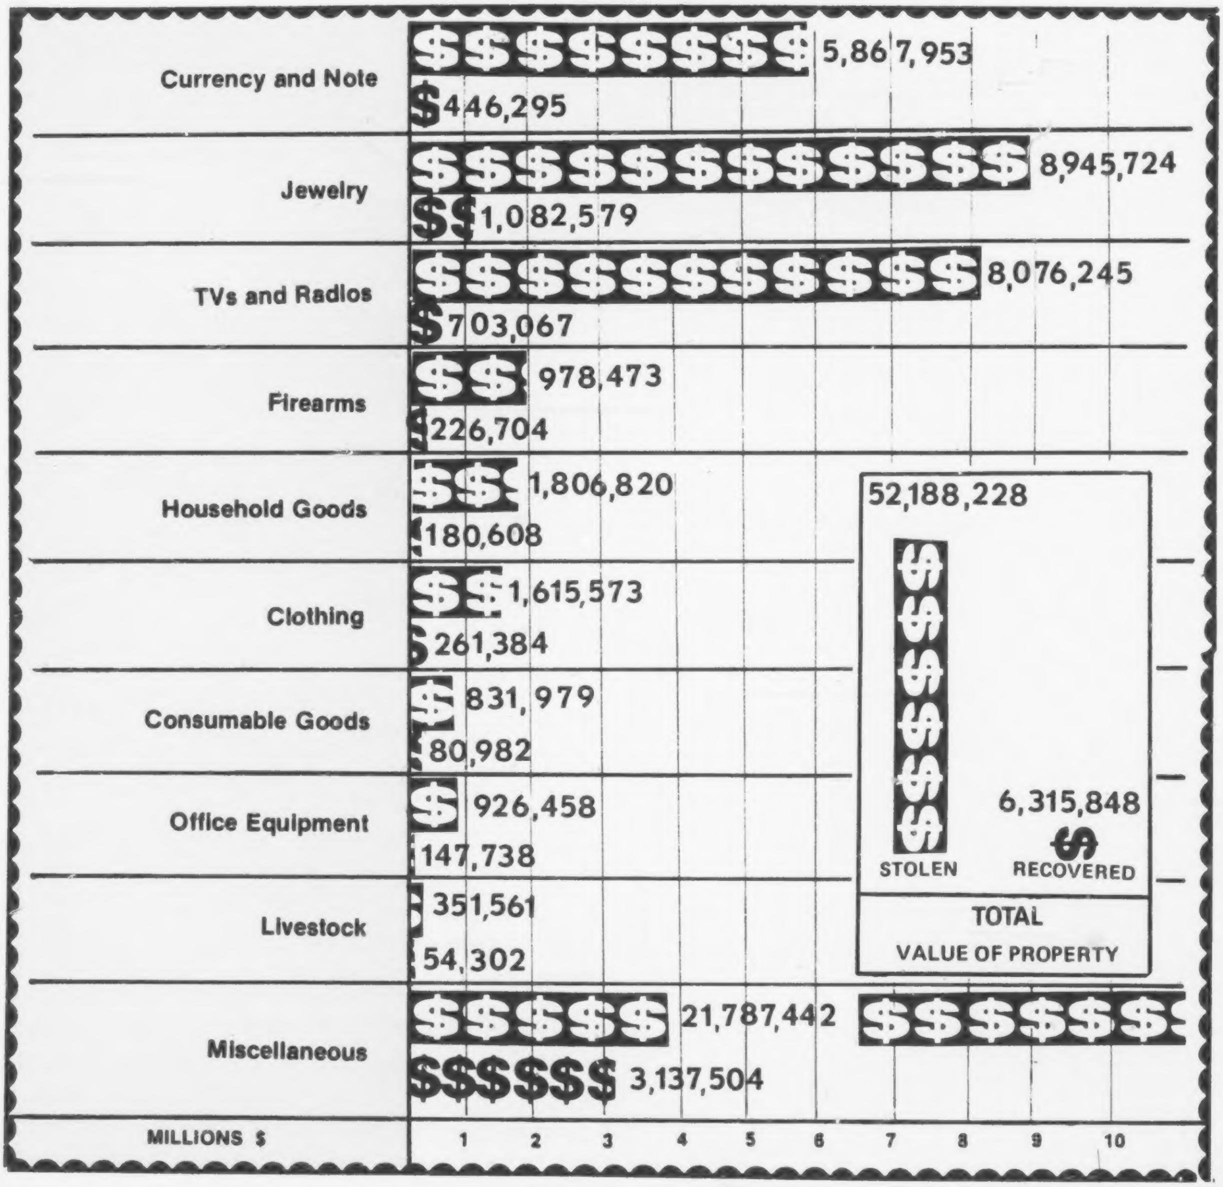
VALUE OF PROPERTY STOLEN/RECOVERED

More than $52 million in currency, notes, and other property were reported stolen in Kentucky from larcenies, burglaries, murders, and rapes committed during 1986. This figure does not include the $32,003,402 total reported value of motor vehicles stolen during the year.

As shown in the chart below, only $6,315,848 in stolen property was recovered. The percentage of property recovered is 12%. The chart also depicts amounts stolen versus recovered for selected property items most frequently stolen. Other than miscellaneous items, jewelry and precious metals represent the highest value of any single item stolen — over $8 million. Only 12% of these items were recovered by the police. Other frequently stolen items include Currency and Notes (8% recovered), TVs and Radios (9% recovered), Firearms (11% recovered), Household Goods (10% recovered), and Clothing (16% recovered).



THE COST OF LARCENY IN KENTUCKY

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Pocket-Picking	353	0.5	$ 78,205	$ 221
Purse Snatching	406	0.6	$ 70,385	$ 173
Shoplifting	9,485	14.7	$ 680,018	$ 71
From Autos	12,645	19.6	$ 5,150,455	$ 406
Auto Parts and Accessories	13,345	20.7	$ 3,674,829	$ 275
Bicycles	4,424	6.9	$ 664,927	$ 150
From Buildings	9,026	14.0	$ 4,611,460	$ 510
From Coin Operated Machines	764	1.2	$ 98,828	$ 129
Livestock	277	0.4	$ 345,532	$1,247
Farm Equipment	308	0.5	$ 753,113	$2,445
All Other	13,434	20.8	$ 9,323,804	$ 694
Total for Kentucky	64,467	100.0	$25,451,556	$ 394

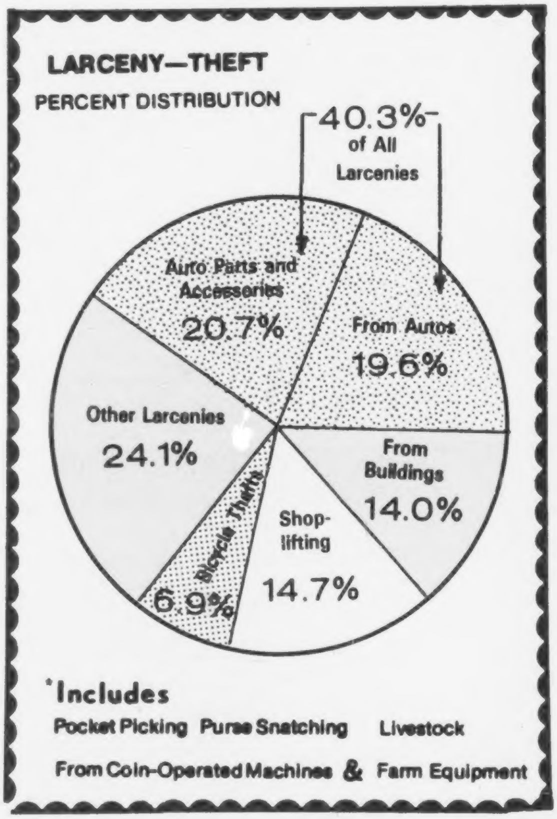
As seen in the above table, the total reported value of property stolen in larcenies reported during 1986 was $25,451,556. The type of larcenies reported in Kentucky can be seen by the number of offenses reported in each classification and the total value of property stolen.

The right-hand chart shows the percentage of occurrence for five major types of larceny.

20.7% of all larcenies reported in Kentucky during 1986 were related to theft of Auto Parts and Accessories; 19.6% were theft of personal effects from Autos. These two incidences account for $8,825,284 in losses, or 35% of the value stolen for all reported larcenies.

Theft of items from buildings represents 14.0% of all reported larcenies and 18.1% of the value of property stolen. Shoplifting accounts for 14.7% of the incidences, but only 2.7% of the value of property stolen. This may be attributed to the fact that many businesses do not report shoplifting incidences to the police unless and until a perpetrator has been apprehended.

While the theft of Livestock and Farm Equipment reflect only 0.9% of all larcenies, the value of these thefts are 4.3% of total larceny losses.



PERSONS ARRESTED FOR LARCENY–THEFT – 1986

14,212 persons were arrested for Laceny-Theft during 1986. 67.5% of those arrested were male; 32.5% were female; 72% were adults; and 28% were juveniles.

75% of the adults arrested for Larceny-Theft were between the ages of eighteen and thirty-four. 61% of the juveniles arrested were between the ages of fifteen and seventeen.

43.1% of all arrests for Larceny-Theft were reported by agencies in the KIPDA and Bluegrass Area Development Districts.

AUTO THEFT IN KENTUCKY — 1986

DEFINITION

Auto Theft includes all thefts and attempted thefts of motor vehicles, including cars, trucks, busses, motorcycles, mopeds, and motor homes. The taking of a vehicle for temporary use when a prior authority has been granted or can be assumed (such as in family situations) would not be classified as an auto theft.

NUMBER REPORTED	CLEARANCES	RATE
7,154	1,350	18.9%

7,154 incidences of Auto Theft were reported to the police during 1986. Only 18.9% of the reported Auto Thefts were cleared by arrest or exceptional means.

Although 63% of the reported Auto Thefts occurred in Kentucky's most populated areas (KIPDA, Bluegrass, and Northern Kentucky Area Development Districts) as shown in the map (below), other areas in Kentucky experienced substantial thefts of motor vehicles. The Buffalo Trace area, however, reported an appreciably less number of vehicle thefts.

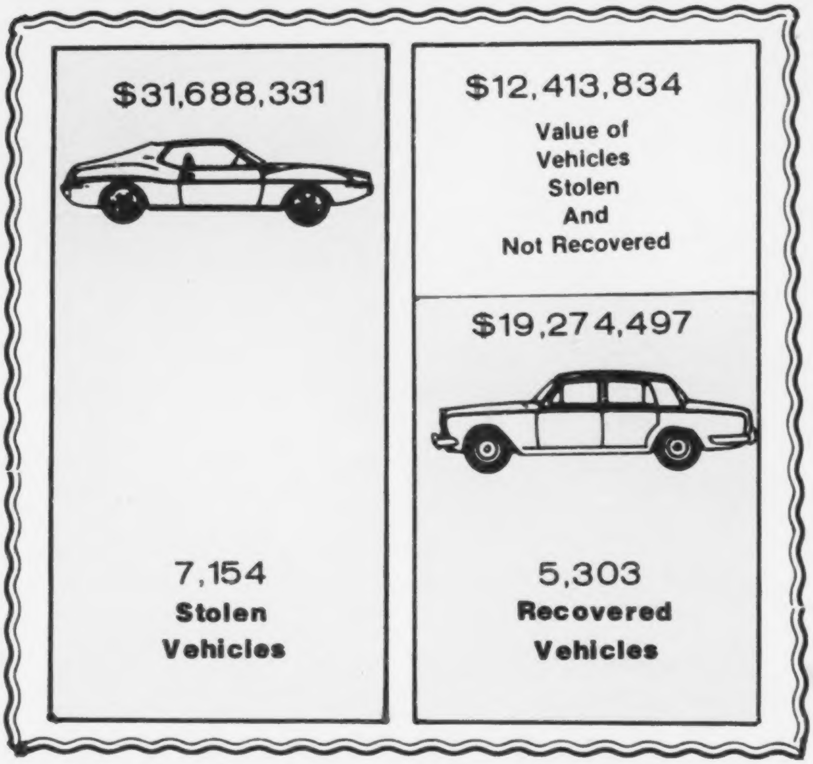
COST OF AUTO THEFT IN KENTUCKY

The value of vehicles reported stolen during 1986 was $31,688,331. 7,154 vehicles were stolen. 5,303 vehicles were recovered. The recovery rate (stolen vs. recovered) during 1986 was 74.1%. However, comparing the value of vehicles stolen vs. recovered, the ratio is only 39.2%.

Based on reported value when vehicles were stolen, the difference between value stolen and value recovered was $12,413,834. This amount does not fully reflect the real cost of auto theft to Kentucky taxpayers because the cost of insurance premiums and other factors such as substitute transportation, lost work days, etc. are not included.

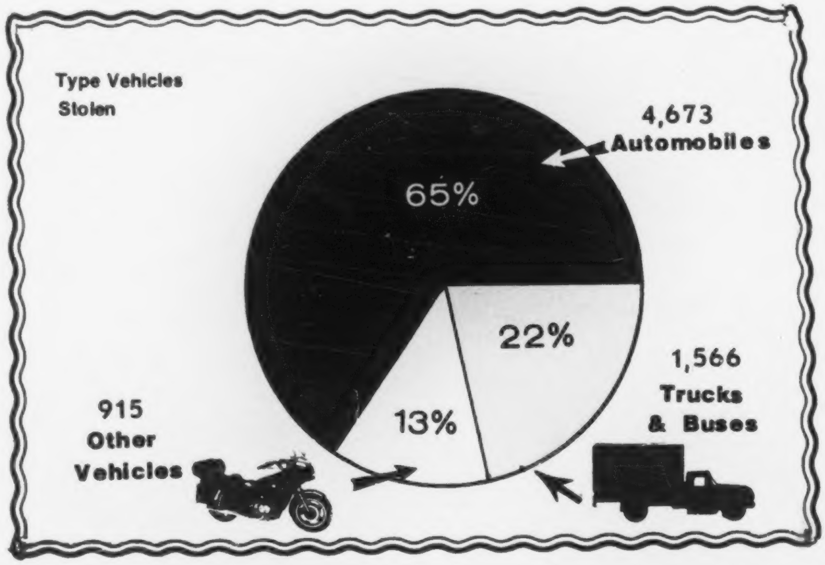


The above figures do not include 3,966 vehicles stolen out of town and recovered in Kentucky. Also not included in the above data are farm equipment, bulldozers, airplanes, construction equipment, and motorboats. The value of farm equipment is reported under larceny.

4,673 automobiles (cars, including taxi cabs) were reported stolen. Autos represent 65% of all stolen vehicles.

1,566 trucks and buses were stolen, representing 22% of all stolen vehicles.

The 915 "other vehicles" stolen would include motorcycles, motor scooters, trailbikes, mopeds, etc., and represent 13% of the total number of vehicles stolen.



PERSONS ARRESTED FOR AUTO THEFT — 1986

1,060 persons were arrested for Auto Theft during 1986. 90.1% of those arrested were male; 60% were adults; and 40% were juveniles, 85% were white.

86% of the adults arrested for Auto Theft were between the ages of eighteen and thirty-four. 74% of the juveniles arrested were between the ages of fifteen and seventeen.

34.9% of all Auto Theft arrests were reported by agencies in the KIPDA and Bluegrass Area Development Districts.

ARSON — 1986

DEFINITION

Arson includes any willful or malicious burning or attempt to burn (with or without intent to defraud) a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined to have been willfully or maliciously set are classified as arson. Attempts to burn are also included.

NUMBER REPORTED	CLEARANCES	RATE
1,502	325	21.6%

1,502 incidences of Arson were reported during 1986. Only 325 of these offenses were cleared by arrest, with a clearance rate of 22%. Total losses from Arson were $19,185,100.00.

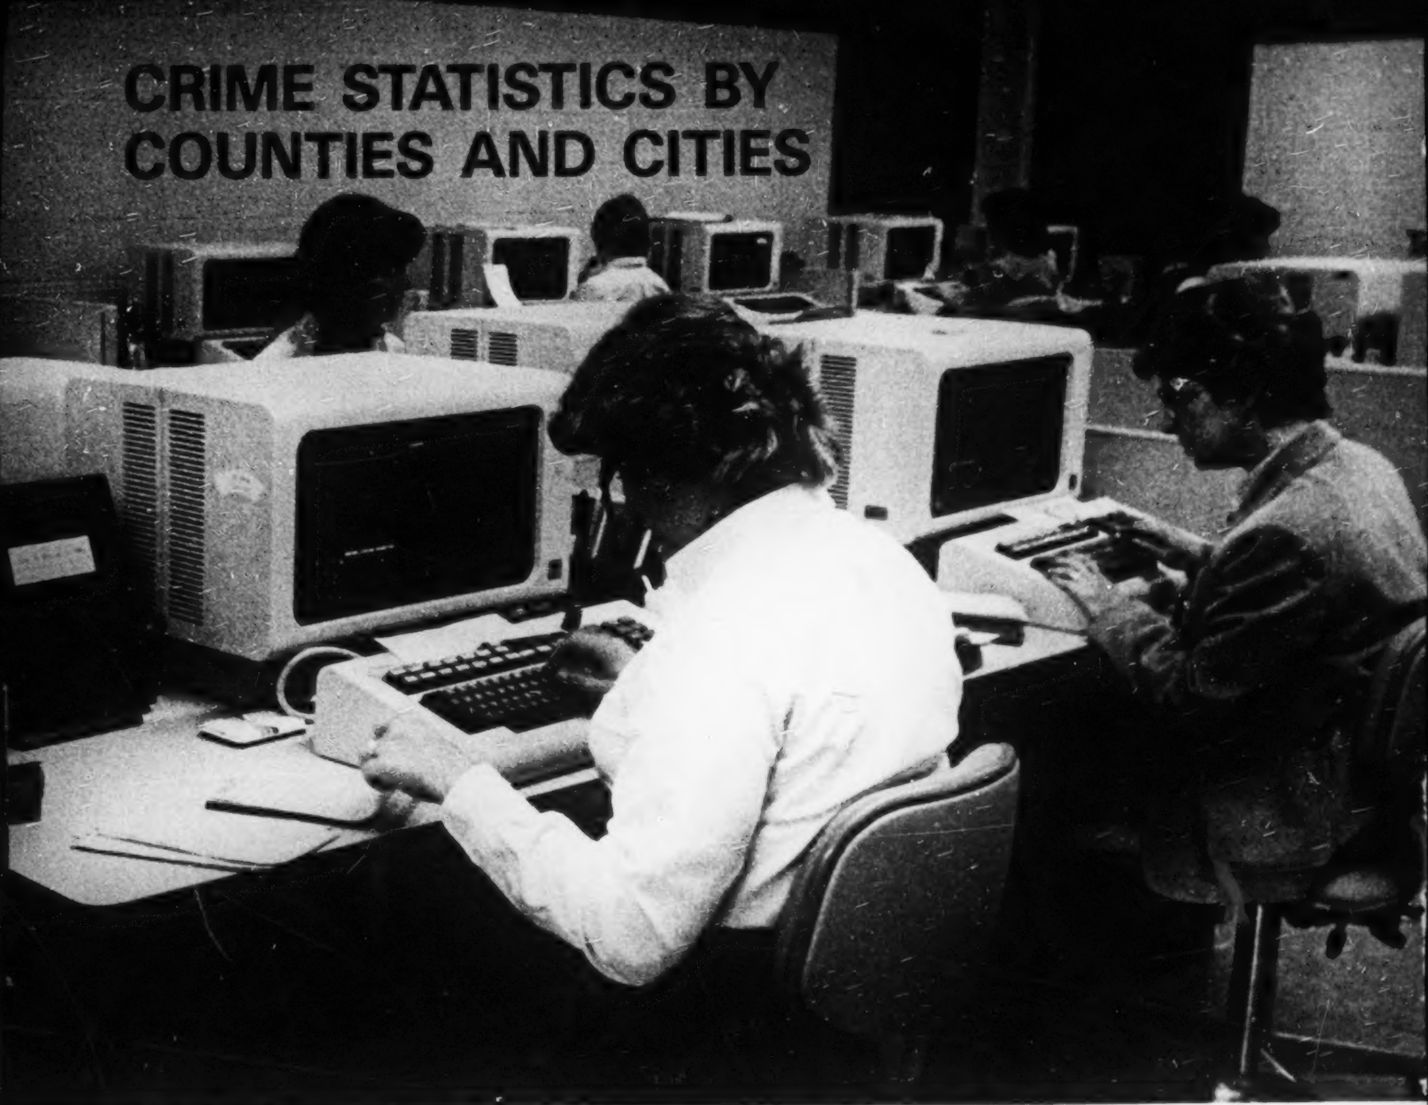
The chart below shows the number of offenses by property type, clearances, and estimated value of property damage or destruction. Single occupancy residences accounted for 42% of all Arsons. Motor Vehicles "torched" accounted for 19% of the Arsons investigated, and Storage Buildings accounted for 13%.

Single occupancy residences burned represent 47% of the total value of losses resulting from Arson. Storage facilities reflect 14% of the total value of losses; and commercial buildings (stores, restaurants, offices) account for 12% of the losses reported.

An ARSON OCCURS every 7 HOURS

	PROPERTY CLASSIFICATION	NUMBER OF OFFENSES	TOTAL Offenses Cleared	Estimated Value of Property Damaged
STRUCTURAL	Single Occupancy Residential (Houses, Townhouses, Duplexes, etc.)	625	137	$ 8,993,561
	Other Residential (Apartments, Flats, Hotels, Motels, Dorms, etc.)	95	29	$ 591,875
	Storage (Barns, Garages, Warehouses, etc.)	193	48	$ 2,713,602
	Industrial/Manufacturing	18	2	$ 1,853,300
	Other Commercial (Stores, Restaurants, Offices, etc.)	104	28	$ 2,229,040
	Community/Public (Churches, Jails, Schools, Colleges, Hospitals, etc.)	77	21	$ 970,820
	All Other Structures (Outbuildings, Monuments, Buildings under Construction, etc.)	40	10	$ 287,690
	TOTAL STRUCTURE	**1,152**	**275**	**$17,639,388**
MOBILE	Motor Vehicles (Autos, Trucks, Buses, Motorcycles, etc.)	282	41	$ 1,217,170
	Other Mobile Property (Trailers, Recreational Vehicles, Airplanes, Boats, etc.)	40	5	$ 319,455
	TOTAL MOBILE	**322**	**46**	**$ 1,536,625**
	TOTAL OTHER (fences, etc.)	**28**	**4**	**$ 8,587**
	GRAND TOTAL	**1,502**	**325**	**$19,185,100**

CRIME STATISTICS BY COUNTIES AND CITIES



NOTE

The accuracy of offense and arrest data compiled statewide is contingent upon the accurate and timely compliance with UCR reporting requirements.

Crime statistics included in this section reflect Part I Crimes and only those offenses "known to the police" and reported through the Uniform Crime Reporting Program.

Part I Crimes data for each reporting agency, together with the total number of offenses for each Kentucky County are tabulated. Ninety-nine percent of the required reports were received and tabulated for 1986. The "Months on File" column indicates the number of monthly UCR reports submitted for each contributing agency. All agencies, with the exception of the Morgan County Sheriff's Office, filed all required reports.

79% of the persons arrested for PART I Crimes were male; 21% were female. The largest number of both males and females arrested for any single PART I Crime was for Larceny-Theft. The lowest percentage of female arrests was for Burglary and Rape. For PART I offenses, Burglary and Larceny represent 68% of all male arrests; Larceny and Aggravated Assault represent 92% of all female arrests.

A comparison of males vs. females arrested for PART II Crimes reflects more females than males arrested for the following offenses: Prostitution and Commercialized Vice - 67%; and Juvenile Runaways - 55%.

The largest number of males and females arrested for any PART II Offense was for Driving Under the Influence and Drunkenness.

The overall percentage for both PART I and PART II offenses shows 85% of all persons arrested during 1986 were male; 15% were female.

NOTES

STATISTICAL SUMMARY REPORT
1986

The following statistical summaries for the 1986 calendar year were compiled by the Information Services Branch, Records Section. As the Central Repository for Criminal History and statistical information in Kentucky, the type and volume of criminal history and statistical activities generated over a year are a reflection of the services which the Records Section provides to law enforcement agencies throughout Kentucky. This statistical summary also reflects the level of services performed by law enforcement agencies on behalf of the citizens of the Commonwealth.
